Please keep this page for your online registration.

No.:FIBABRB03V1.0

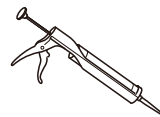

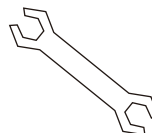

CAUTION

Risk of personal injury. Bath tubs can be extremely heavy. Obtain sufficient help to carefully lift or move the bath tub.

TOOLS

YOU MIGHT NEED

Before installation

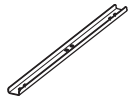

- Before installation check that all fittings have been supplied.
- Assembled bath on a mat to protect against damage to bath surface.
- This product requires a two person lift-use proper lifting techniques.
- Follow each step in turn.

CAUTION

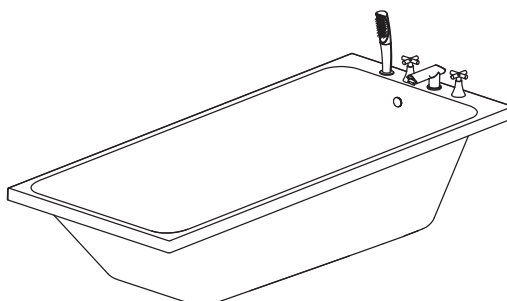

Please ensure that the ground is flat before installation; otherwise, it will affect the installation effect.

Standard Bath-Leg Fitting Instruction

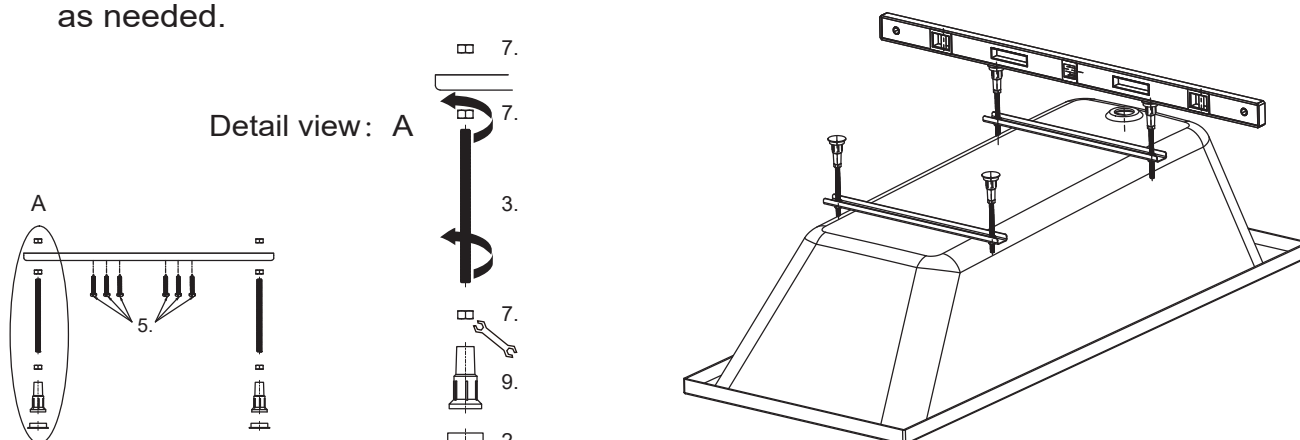

No.	Quantity	Image	No.	Quantity	Image	No.	Quantity	Image
1	2		2	4		3	4*160MM	
4	4*45MM		5	12*13MM		6	4	
7	12*M10		8	4		9	4	

Installation Procedure

- Accessory Note: Faucets and bathtub drains are optional parts and need to be purchased separately.
Installation Sequence: Please install the bathtub drain first, then proceed to assemble the bath leg.

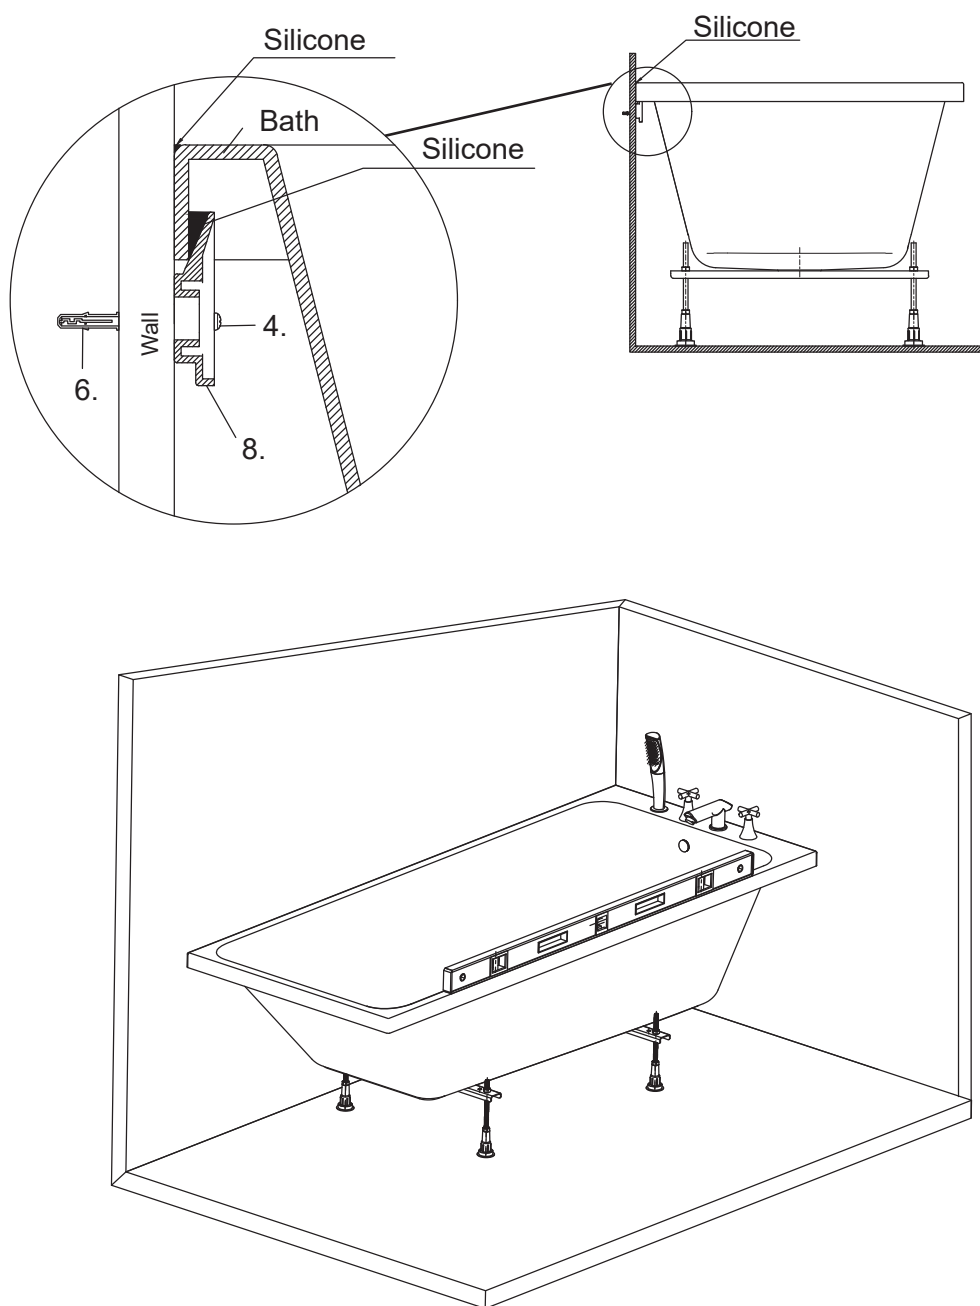

- Once the legs are secured firmly in position, use a level to check that all legs are of equal height and that the unit is perfectly horizontal. Make adjustments as needed.

Installation Procedure

3. Set the bathtub aside first. Use a correctly sized drill bit to drill wall holes (confirm no hidden pipes/cables behind the wall), then fit the bathtub into position.

CAUTION

The bathtub may only be used when all accessories are properly installed.
