CONNECT WITH HOT WATER PIPE

CONNECT WITH COLD WATER PIPE

AFTER INSTALLATION

Ensure that all connections are tight. Ensure that the handle is in the off position. Turn on the drain and main water supply, and check for leaks. Repair as needed.

CARE & CLEANING

Your new tap is designed for years of trouble-free performance. Keep it looking new by cleaning it periodically with mild soap, rinse thoroughly with warm water and dry with a clean, soft cloth. Do not use abrasive cleaners, steel wool or harsh chemicals, as these will dull the finish. Failure to follow these instructions may void your warranty.

TROUBLE SHOOTING

If you've followed the instructions carefully and your tap still does not work properly, take these corrective steps.

Problem	Possible Cause	Solution
Insufficient water	- Aerator clogged	- Clean aerator, replace if necessary
Mixer stiff	- Cartridge defective	- Replace cartridge
Mixer dripping	- Cartridge defective	- Replace cartridge
Water leaks below handle	- Cartridge defective	- Replace cartridge
	- O-ring/rings defective	- Replace O-ring/rings
Water leaks at the connection	- Loose connection	- Tighten connection
